

Team Name: PiercePrevostSinghManley

Report Number: 14

Reporting Week: 14

Summary of work completed in prior week:

Added user authentication and log-in functionality using Django. Gained knowledge of back-end integration.

Summary of work planned for next week:

Finish project by connecting front-end to back-end and adding any last minute functionality that was missing. Prepare demonstration of project for Thursday. Add search functionality after back-end functionality is implemented so it returns the searched recipe.

Open issues and action plan to resolve them:

N/A

Project management summary:

Team member	Tasks completed	Hours worked for week	Total hours
Michael Prevost	Continued learning about connection methods.	3	32
Randeep Singh	Began working on backend integration Continued learning how to connect front-end to back-end	3	34
Taylor Manley	Continued working on basic Django database connections	4	30
Michael Pierce	Work on database connection methods	4	30

Meeting summary:

We met Monday, Wednesday, & Sunday to discuss how to implement our back-end and ensure our database was functioning with our site. We began working on adding GET, POST, & PUT functionalities using Django. Every team member was present for each meeting. On Monday & Wednesday we met at 5PM and on Sunday we met at noon.
